Planners comments

Thanks for all turning up, this was my first attempt at planning and the weather stayed fine.

Apologies for the confusion over two controls - No.1 (cairn) and No.6 (boulder) on the medium course.

The cairn had been broken down and should have been rebuilt.

The area around No.6 turned out to be ambiguous with a few other unmapped features which caused some confusion to a few competitors. In hindsight, either the other features should have been mapped, or another feature used as the control site.

Using permanent course markers with the high vegetation also made it difficult for some of the sites to be found.
