6. A.Lumb	M35	NATO	74:29 (24:52 / 49:37)

*map 1 / 2 times in brackets*

**Organiser / planner's comments** - *Rob McKenna*

Many thanks for all turning up and I hope you enjoyed this new area and the courses. The weather was absolutely superb if not a little too warm for running. Red Barns is not a very technical area but will improve as the plantations mature.

Ed showed us all again what can be achieved with a 'little' bit of training but apparently he was feeling the effects of an earlier outing.

The event seemed to go off without any problems and all the controls remained in tact - unusual for one of these urban events. If anybody would like a copy of their part 1 or 2 maps, I will bring them along to the next Wednesday evening event at Plessey. Please forward any comments or queries on the results to me.
