Edges Green is not a highly technical area and its run-ability has deteriorated since the Foot and Mouth outbreak in 2000. Although reeds seem to have almost taken over the whole area, there were still some fast times set by the class leaders in some very wet and windy conditions. I tried to keep the shorter courses to the 'greener', faster sections along the stream valley. Unfortunately, to obtain the correct distances, the longer courses travelled a bit further afield where the terrain was a bit tougher. The initial plan was to use more of Gibbs Hill farm extending the mapped area further east. Full permissions were not granted in time, but in any case, although this may have provided a bigger area, there would have been many more wall crossings.

My thanks to Ray Barnes for keeping me on the right track with his meticulous controlling and the few brave club 'volunteers' who helped collect the controls in.

Also to Andrew Nicoll (NATO) for his help before, during and after the event - programming the SI equipment and generally running the download and results service both days.

Acknowledgements

Many thanks to the farmers - Willie Weatherson (Edges Green) and David Swallow (High Edges Green) for the use of the area and helping with the stiles.

A special thanks to Jaqueline Marley and the small band of TA cadets from the Hexham ACF, who helped man the car parking in dreadful conditions on day 1.
