11. P.Davies W45 NATO 56.04
12. F.Miller M50 NATO 59.07
13. S.Sprot W50 NATO 59.44

Thanks for turning up on what turned out to be a particularly foul night in Sun City for the time of year, but the advantage is that controls stay in their correct positions. I hope I set you some route choice problems to stretch your mind as well as your legs. Sorry about some of the permanent course controls being out of action. I did check them all last week and they were OK then and discovering today that they had been vandalised, I did put a piece of my white tape at the control site, but these (one in particular at P19) must have been more difficult to see than I thought.

The next event I am organising of a similar nature is at Cong Burn, near Chester-le-Street on Wednesday, 4.7.01, registration 1800-1845. Assembly is at the west end of Waldrige Village, grid ref NZ250502. This is real orienteering, with some open fell and mature oak and beech woodland in a steep stream valley, which has been much improved from an orienteering point of view since it was last used around 1993. New colour map, overprinted, bagged and sealed.

Organiser / planner – Dave Caudwell
