*Disqualified*

G.Jones	M15	BAOC	70.33	m5
---------	-----	------	-------	----

**KEY** : m = missed, f = found, w = wrong

**NEOA Colour Award Scheme**

Members of NEOA may purchase the relevant colour badge on completion of three events, finishing above the colour line. For further details, contact Margaret Crosby (0191 2685449)

**Organisers comments** – *Eric Stamp*

Hope you all enjoyed your bash through the brambles, as one Scottish competitor remarked "That's a brambly wee bit o wood ye've got there" other comments were not so polite! Still, most competitors appeared to enjoy their run and came back with smiling faces – mad lot. Thanks to Susan for running the registration and serving the tea and coffee – much appreciated by many competitors I'm sure. Thanks also to all the other helpers on both days especially Bob McKenna for his quiet efficiency in helping me on Saturday and running the show on the Sunday.

**Planners Comments** – *Duncan Castling*

This was the first event that I have planned, the memories (or scars) will remain with me for a long time. Thanks to Nick, Eric and Bob for their invaluable help. Even though it felt like total chaos on Friday, it still all came right in the end.

**Controllers comments** – *Nick Lord*

Despite some worries during the last two weeks the whole weekend went remarkably smoothly. Neither event attracted any serious adverse comment. Apologies to all the night competitors on course A who did not find any punches at no.7 – I hope it did not hold any of you up. The course lengths for the Night Championships were based on BOF recommendations for very small badge events. The marker, M21L, length was set with reference to the last night event in Chopwell in 1991 where there was a high retiral rate on a very foggy night. Amazingly most of the winning times were within or close to BOF guidelines despite the low entry numbers. Also of note was the fact that the fastest running times were set by the leading M40s!
