Planner's comments - Debby Warren

Planning on Washington was an interesting challenge considering that I had never planned an urban event before and the time constraints which surrounded the October Odyssey as a whole. However, despite this and a few other problems (an SI box being stolen and a kite being set on fire), the event judging by the positive reaction of the participants, went very smoothly. I would like to give thanks to Rob and Fred for sorting out the various issues with the map on such short notice, and also Boris for his timely rescue of the situation with the printing of the maps for course one. Thanks also go out to Paul Boyles and Phil Batts for assisting with the SI system which our club has little experience of using.
