Organisers comments – *Bob Johnson*

Grateful thanks to Dave Caudwell, John Preston and the numerous club members who willingly turned out to help. Nice day, wasn't it?

Planners comments – *Dave Caudwell*

This event should have taken place on Waldrige Fell, a new area near Chester le Street. However, the most interesting part (for orienteering) has been designated a Site of Special Scientific Interest (SSSI) on account of some rare butterflies that breed there and without the SSSI the area is too small to use. Rather than cancel, the event was switched to Hamsterley.

Further problems came when felling destroyed the only flattish area suitable for shorter courses (grouse, this time!). The event seemed doomed when I was injured 3 weeks ago, spent a week on crutches and even now cannot walk comfortably.

It came as a relief when the event took place without further disaster. I hope you felt that your courses made the best use of the forest remaining and that newcomers don't think that orienteering always includes a vertical 300ft climb!

Many thanks to John Preston, an admirable controller, who did some of my duties when I was immobilised.
