Organiser / Planner's comments - Dave Caudwell

Thank you for attending this event in such large numbers. We were expecting around 50 of you, hence the rather longer queues at registration than we would have wished. I had printed 90 maps to be on the safe side, not knowing which courses would be in demand, and this looked to be hopelessly optimistic when around 40 of you had 'pre-entered' by email by Saturday, but only proved to be barely adequate on the day. Apologies if you were 'forced' to run a course you would have preferred not to have done.

There were some long time, a credit to your determination, if nothing else. Clearly, some of you were not quite ready for the difficulties you met on the Green and Light Green courses and would have been happier on a Yellow or Orange course if there had been one. The reason there wasn't was because control sites were frequently vandalised (kites and punches stolen) in years gone by when we put courses on in the Cong Burn. Yellow and Orange course controls are easier to find for orienteers but they are also easier to find for vandals

As it happens the weather probably kept most of the potential trouble makers indoors and also kept down the number of illegal bikers from the area, which was also a blessing.

The area is interesting from an orienteering point of view, but the steep and muddy nature of the terrain makes it difficult to plan courses for Light Green, which is supposed to be rather less physical than the others on offer. I did my best, planning a course which enabled you to use the 'causeway' over the burn going out and coming back, but many of you chose not to use this route.

I hope to see many of you again at Kellas in February (details on the NN website).

Many thanks to Andy Niven of Durham County Council Countryside Section for his helpful co-operation in staging this event and the NN club members who assisted on the day.

NEOA Colour Award Scheme

Members of NEOA may purchase the relevent colour badge on completion of three NEOA events (one may be from outside the area), finishing above the colour line.
