The colour line

As a guide, competitors completing three courses of the same standard and finishing above the colour line should have gained enough experience to move up to the next colour standard.

The Navigation Challenge

BO members are eligible for a Navigation Challenge certificate after successfully completing 3 colour coded courses at the same Technical Difficulty (TD) standard. The certificates are 'star' based e.g. 1 star for TD 1 up to 5 Star for TD 5.

The Racing Challenge

BO members are also eligible for a Racing Challenge certificate after successfully completing 3 colour coded courses (of the same TD) within the following times.

Gold award - Participants time < Course length (km) x 12.5 mins

Silver award - Participants time < Course length (km) x 15 mins

Bronze award - Participants time < Course length (km) x 20 mins

Receiving Your Certificate

The certificates will be automatically generated via the results that clubs have uploaded into the BO website. They will be available for you to download via the members area of the BO website.

Many thanks for coming and supporting this event as it was touch and go as to whether we should cancel it given the prevailing weather conditions. It was a decision taken right at the last minute when we inspected the parking field on the morning following a deluge of rain the night before. The previous day had been forecast for much of the same, but it didn't rain at all when we were putting out the controls on the Saturday afternoon, so I think we were a bit fortunate.

The courses were planned around where the Yellow course could go which meant although the start was close by, the finish was a bit of a distance away, sorry.

I managed to keep most of the courses down to one crossing of the main dividing wall which made for a bit of zig-zagging to keep the courses interesting and only the Brown had to venture back across the wall to get the distance in.

The steep rock slope to the south of the area is quite technical and physically challenging. It is quite difficult to make out what rock features are mapped so I kept the controls in that area fairly simple but couldn't avoid the climb back out.

There were some very fast times posted by the course leaders and well done to them but the chasing pack weren't that far behind them. The happy smiling faces at download and the kind comments are always welcome as it makes it all the more worthwhile.

My thanks to Julian for his quiet and careful controlling and to Boris for his calmness and efficiency in organising the event under difficult conditions.

Thanks also to the landowners for allowing us to use such a great area for orienteering, especially Mr. Robson for the use of the parking area for without this I doubt the event could have went ahead.
