**Organiser's comments -.**

In the first instance I wish to thank all those competitors who turned out to sample orienteering for the first time. I hope the experience served to fire up their enthusiasm for the sport and spur them on sufficiently so that they will compete in future events.

I would now like to express my thanks to all those who assisted in helping to stage the event, especially to John Booth who planned the event. The three courses which he set, proved to fit the requirements of a CAT1 exactly, as shown by the spread of results shown above.
