What a fantastic day for an event at Kellas. There seemed to be a holiday atmosphere in the car parking field - I hope that no one suffered from sunburn! Meanwhile, in the forest, people seemed to be enjoying their runs through sunlit trees and I felt quite envious. Others were working extremely hard and my thanks go to all the NN members who helped in some way, especially Don for all his efforts with pre-entries (I'm sure many of you appreciated his understanding approach to late, and even very late, entries!) and with results.

I would also like to thank the landowners for allowing us to use their woods: thanks to Lowther Scott-Harden, Minsteracres Estate, and especially to Major Warde-Aldam for all his help despite my constant pestering! I would also like to thank Mr. Jewitt for allowing us to use his field for such an excellent car park.

Finally, particular thanks to Patrick, Chris and John who were a pleasure to work with.

Planner's Comments - *Patrick Aynsley-Smyth*

Kellas - little undergrowth and almost no brambles - a really pleasant wood in which to run and plan. It does make for fast times and controls which are visible.

The times for the M19, 21, 35L were as expected, although the other courses seemed to have been rather too short; probably because they avoided the south west corner with the young trees.

The control which gave the most problems was 113, Hide. This was in the middle of a green block and for most people came at the end of the course during which controls had been especially visible, so they weren't expecting as much difficulty.

One complaint - if you do not use the marked crossing point's and knock down a wall as a result, please tell someone at the finish. This will allow us to start rebuilding it before 5pm, when we'd rather be on our way home!

Apologies to Alastair Lord who found one of his controls with no punches!

My thanks to Chris and Maurice Swales, Nick Lord, everyone who helped collect controls and especially Tricia and John.

p.s. - Maurice, the next time you come asking me favours, wait until I've forgotten how much work goes into planning an event (or until I've retired which might be sooner!).
