NEOA Colour Award Scheme

Members of NEOA may purchase the relevant colour badge on completion of three NEOA events (one may be from outside the area), finishing above the colour line.
 For further details, contact : Margaret Crosby (0191 2685449)

Organisers comments - Tricia Davies

Many thanks to everyone who turned out to support the event, despite the awful weather. Sorry for the rather exposed master maps - I hope your maps didn't end up too wet before you set off.

It was nice to see so many new faces, both from universities and other youth groups. It is always encouraging when there is a high turnout of juniors - we hope to see you all again at a future event or training. Just one comment though - several juniors retired and did not report to the finish - we assumed they were no longer in the woods when all the cars had disappeared! This could lead to an unnecessary search.

Thanks to everyone who helped out on the day, especially to Grahame who saved me a great deal of time and effort by carrying out many of the organisational tasks.

Thanks to the many landowners involved:

British Coal Property and British Coal Opencast especially Mr Johnson, with their agents Northern woodlands.
 Prudhoe Hospital especially Mrs Railton, Mr Potts Dukeshagg Farm, Mr Little Frenches Close Farm, Ian Gray Bucks Nook Farm, Mr Atkinson Leadgate Farm, Mr Golightly The Guards.

Planner's comments – *Don Smith*

Times for all courses except orange indicate that we got it about right in terms of technical and physical ability. The Orange course, whilst it seemed to fit guidelines, provided times which were too long plus a number of retirals. At this level, so much depends on age, experience or otherwise of those who take part. For the longer, more technical courses, the area required many controls to turn corners and keep people in the woods to give as great a difficulty as possible. Comments from green and blue course runners were favourable and much appreciated. Thanks to Eric for his controlling, ground check and help with courses, Maurice for his help on Saturday and Tricia with her organisation team.

Controllers comments - *Eric Stamp*

Apologies to the few competitors who were affected by a mistake on one of the Blue course master maps, which showed the first control on the wrong knoll 40 metres South East of where it should have been. Only one competitor commented on the error and the map was quickly withdrawn, but it is possible others may have been affected; perhaps thinking they had mis-marked their map. Unfortunately another competitor was given an incorrect control description for the Red course which had the number 170 instead of 176 for the knoll top (control number 9). All of the others appeared to be printed correctly! It appeared that this was from an earlier edition of the descriptions which should have been destroyed. Sorry again to the competitors who lost time due to these errors.
