**BOF National Badge Scheme**

You may use these results for your badge awards.

When you have three similar standards, you buy Gold, Silver, Bronze or Iron badges as follows:

Metal brooch badge	£1.50
Cloth badge	£1.00
Age or year flash	£0.40
Certificate	£0.30

Apply by sending a cheque made payable to BOF and a stamped addressed envelope (22 x 16cm) to:

S&amp;V.Johnston, The Alders, Blencowe, Penrith, Cumbria, CA11 0DB

For more badge scheme details see BOF rules or contact the National Office fro an explanatory leaflet.

**NEOA Colour Award Scheme**

Members of NEOA may purchase the relevant colour badge on completion of three events, finishing above the colour line. For further details, contact Margaret Crosby (0191 2685449)

**Organisers comments** – Patrick Smyth

A sense of relief now that the last part of the task is complete and I can send these completed results off to the printer! Despite the long lead time for this event, jobs did seem to pile up in the weeks prior too the event; so I must express my thanks to those club members who turned up to help both in the week before and on the day. This especially to those who hung on to the end when we were worried about people 'lost' on the moor. A thanks also to those who braved the bad weather forecasts to attend and who were most appreciative of both the club's efforts and terrain. I am sure you will agree that this was a challenging area and well worth the effort of the travel. I hope we can entice you back here in better weather. My only concern is the number of competitors who failed to report to the finish on retiring! This caused us some anxious moments as the weather worsened. The only way we could tell the owners of the missing control cards were not still out on the moor was the empty car park! Please if you retire be considerate and tell someone! Finally an apology to the younger individuals on the string course – the results were left in a box of soggy equipment overnight and turned into a mass of papier mache and were consequently un-readable. So my apologies.

**Planners Comments** – John Maguire

The high bracken and forestry thinning work delayed the surveying of the escarpment in Hepburn Wood this summer and meant that we were left with only five weeks to finalise courses and complete the overprinting. That we succeeded was due to the great support I received, especially from John Biggar, the controller. He recruited his son Alister and with Blair Young worked prodigiously to make sure that everything was ready on time. At the Northumberland end, Dave Caudwell and Rob McKenna gave their help and advice freely and John Willis was there when we needed to help put out and take in controls. All this was nearly in vain, because on the Thursday night before the event, after an arctic day putting out controls, we seriously considered calling it off. The weather did improve (well, it became warmer) and we just managed to get everyone started before the blizzard came down. The decision to put the start and finish in the wood was fully justified; to have them on the moor would have been unthinkable. The courses were generally well received and several of you were kind enough to say so. This was greeted with as much relief as pleasure, given the haste of the preparation. There were comments that some of the courses were on the long side, perhaps not surprising given the weather conditions, with the snow underfoot, and the fact that the area was new. One competitor asserted that a control was wrongly sited and another complained, quite rightly if the allegation were true, that people were not using the crossing points. The courses were planned taking into account the visibility on the moor, using plenty of sites to give a good number of individual controls to each course. It was a pity about the weather, because the views really are 'extensive and impressive'. This is a major area, readily made available to us by the landowner, John Wrangham. It provides an interesting mixture of strenuous and technical difficulty, combined with fast open running, that makes it a formidable challenge. And there is still the south of the moor to map, roughly equal in size to the area we have used.
