KEY : w – wrong, m – missed, f – controls found

NEOA Colour Award Scheme

Members of NEOA may purchase the relevant colour badge on completion of three events, finishing above the colour line. For further details, contact Margaret Crosby (0191 2685449)

Planners comments – Patrick Aynsley-Smyth

I tried to give everyone a chance to run in all three areas – the forest blocks, the grouse moors and the deciduous trees scattered around the farmland. Most people seemed to have enjoyed their run and the problems I heard about were caused by the change in terrain. However, I spent some time watching people confused on the old mine workings mainly because they underestimated the difficulty of the controls and ran into the area without a decent attack point.

My thanks to David Brook for his comments and also to David Hale for volunteering to put out controls when I found myself having to work the Saturday morning.

Controllers comments – David Brook (NN)

Good weather + varied terrain + Patrick's excellent courses = reasonable times + few retirals + happy competitors.
Why isn't orienteering always like this?
