Organisers comments – *Charlie Wilson*

It was pity that more people did not take advantage of the Night event. The conditions were almost perfect; cold but still and cloudless with a full moon. On the day, the organisation was more than equal to the job and a little more 'trade' would have been pleasant. My thanks to Alton and Ed for guiding me through the problems, etc. of one's first attempt at organising an event.

Controllers comments – *Alton Horsfal (UDOC)*

Thanks to Ed and Charlie who made this as easy as could be imagined. Especially as this is the first night event that I have been involved in at the planning stage. For those of you who found the map a little interesting (especially control 6 on the medium) all I can say is that Ed kept you away from the worst of it.
