Organiser - *Liz Hale***Planners comments** - *Bob Johnson, Nick Latham*

The day was marred by vandalised controls, unfortunately. The colour coded courses were more or less rescued, but the O-cross was badly affected.

Leading O-cross runners found re-entrant (57) empty except for a tag of tape. The kite, and the cane from which the punches had been cut, were later recovered from the golf course next to the park. Also, a new control assembly (55) had to be set out in a nearby re-entrant before the start. But, unknown to me, those who took it had put the original kite, minus punches, in a niche 30m away down the slope. Only after several finishers had reported the punches gone from 55 --- contrary to my certain knowledge --- did I find out what had happened (thanks to Kath Dixon). Obviously no one is disqualified for not punching, but putty medals for 'not-so-fine' fine navigation are hereby awarded to all those deceived, whom I am to decent to name!

Congratulations to Graeme Francis for eventually getting the better of Dave Caudwell after a hard contest, and commiserations with those whose competition was spoiled by the local Sun readers.

Thanks to the Bishop of Durham for the use of part of his garden, and for using his contacts to fix us a fine day. Thanks too to Liz Hale and her helpers, especially the crew at the O-cross changeover.

I planned the O-cross, Nick Latham (M13) planned the colour coded courses, and the whole lot was controlled by Mike Young (M17, NRGS)

Controller - *Mike Young (NRGS)*
