I hope you all enjoyed your day out in Durham - a good chance to get away from the sales and work off a bit of that Christmas fayre. The plan was to make this event more of a fun, relaxing and pleasurable Boxing Day run out, hence having easier controls nearer the start for the younger and less experienced competitors.

This was the first public use of the 'new' EMIT touch free system in the north and the feedback that I got at the download was very positive.

The weather was just about right although the rain earlier in the week had left the steeper slopes a lot slippier than normal. Well done to Kris on a very creditable fast run, given the conditions under foot, collecting all the controls.

I had intended to publish the controls visited by each competitor but the information has proved too difficult to extract from the EMIT software - so if you would like your route published then send your details with controls visited to Rob McKenna ([robmckenna@blueyonder.co.uk](mailto:robmckenna@blueyonder.co.uk)) who will update the results.

Thanks to your tremendous generosity the event raised £225 which will be given to the 'The Yellow Brick Road' Childrens Charity.

Here are the routes of a few of the top finishers:
