Organiser's comments – Kevin Boal

I hope you all enjoyed competing in this event. I certainly enjoyed organising it. The organising team worked very well in very cold conditions - with no big problems **except** a few people not reporting to the finish. On the whole the event was a success and proved that juniors can run an event as well as, if not better than seniors. Many thanks to all the helpers (mainly juniors), who were very cold when they finished.

They were - The Hale family, The Murdoch family, John & Joan Murley, Adrian Barnes, Steve Nesbitt, John & Tim Preston, Mickey Groves, Matthew Rogers, Jim & Michael Nield, Kevin O'Niel, Andrew Bober, Andy Ligema, Francis Boyle, John Lonsdale.

Planner's / controller's comments - Stephen Murdoch, Dave Whittaker

We hope you all enjoyed yourselves at the event, despite the very cold weather. Most of you seemed to be having fun. We were delighted at the number of entries - a total of 270 took part - in this the first event of 1979 in the region.

Chopwell is notorious for the disappearance of controls and expensive punches so unfortunately we had to charge an extra 5p per entry as insurance against lost equipment. We think that you will agree that it is worth 5p extra to use needle punches. The vandals in fact removed two controls which were discovered and replaced fifteen minutes before the start of the event. For the duration of the event all the controls remained in tact and in their correct positions.

We have to apologise for two problems which occurred on the 'A' course. Firstly, the Junior Pool had trained in Chopwell the previous day using extra yellow tape and controls, and unfortunately these were not removed. This caused difficulty on the line section where you may have seen controls without punches, and also at control 19 on the corridor section where a yellow tape did not mark the correct control position. Secondly, many competitors on the 'A' course had difficulty with control 19, mainly because the ride immediately west of the 'unusual tree' (18) was slightly overgrown. Mistakes were made by overshooting onto the next ride west and afterwards making parallel errors in a ditch system in the blacked out area. We have not disqualified anyone for missing control 19 as many people arriving at a yellow tape thought the control had been vandalised.

We would be very pleased to have your comments on any of the courses especially the training course. Was it valuable? Should we have more in the future?

p.s. Stephen Murdoch, the planner for this event, has just won the course planning competition organised by Tony Thornley in 'The Orienteer'. I am sure you appreciated the hard work and skill he showed in the planning of this event.

Dave Whittaker
