13. M.Hardy	M65	CLOK	55.06	20.15	34.51
14. G.Scott	M55	NATO	57.14	20.10	37.04

**Organiser / planner's comments - Rob McKenna**

Many thanks for supporting this event. We were very fortunate with the weather, as it had forecast showers, but wasn't that sun glorious. Hetton is a good area to run round - small, not very intricate, but fairly fast. It will improve over the next few years, as the young trees mature.

I hung the controls in easy positions which made for faster orienteering, rather than scrapping around in the undergrowth. The grass on the hill had just been cut today which made the going even easier.

I am not sure that I have all the times correct - I seemed to have had a mental block at around 6.40. If you feel that that your time is incorrect, then drop me a line.

My apologies for the size of the symbols on the map. The original map was drawn at 1:5000, but I wanted to use the colour laser printer at work and felt that a scale of 1:7500 would be fine. Unfortunately it would have meant a lot of work to convert all the symbols to the correct size. So although the map has been updated, it is just a scaled down version of the original.

Comments at the finish were favourable and you all seemed to enjoy your run, which makes it all worth while.
