to follow.

Planner's comments - *Debby Warren*

This event was planned last year and then cancelled at the last minute so I am very pleased that it went ahead without any major hiccoughs. However, the map was printed by a local Richmond printer that Phill Batts has used on many occasions but for some reason the print quality was a bit disappointing this time which led to some difficulties, particularly around the school. Apologies for this and hope it didn't spoil your run too much.

I hope you enjoyed the courses and didn't find Richmond too hilly.

Controller's comments - *Mike Edwards*

Many of you took the trouble to find the planner and offer your thanks for her efforts in providing you with challenging courses and that little gesture means much to a volunteer, thank you for that. Several of you provided polite and constructive feedback on areas the new map could be improved and this has been passed to the mapper who will incorporate them in the next version.

Finally, many many apologies for the misplaced control, the fault was entirely mine and we reinstated anyone who didn't find it.

It was a pleasure working with NN whose organizer had certainly got the weather right.

Acknowledgements:

Many thanks to Richmond School, in particular Tony Potter and Matthew Brown, for the use of their school grounds and facilities.
