60 minute score event - 35 controls, 10 points per control, 10 points penalty per minute or part of late

**Officials:**

Organiser / planner - Debby Warren / Julian Warren  
 Controller - Rob McKenna (NN)

**Controller's comments - Rob McKenna**

Many thanks for supporting this event which, with your amazing generosity managed to raise an astounding **£373.92** for Durham Food Cycle ([www.foodcycle.org.uk/location/durham/](http://www.foodcycle.org.uk/location/durham/)).

Thanks also to Phill and Lorraine Batts for managing the computing, registration and download.

Sorry for any problems with registration but I think they were a bit overwhelmed by the numbers - we may have to re-think this for next year, perhaps some form of self registration?

Apologies also for a few of the controls not working due to battery failure. For future reference I have been informed that the kit is to be updated in the new year to the newer ('Professional') version of EMIT control. They are a physically different type of control being much larger and although they work in a similar way you don't have to be as close and can pass them faster if your able. However, unlike the 'old' kit, battery life can be monitored so controls should be more reliable.

Aykley Heads does have a lot of potential with possible expansion to the north into the Newton Hall housing estate, eastwards across the railway and back into Wharton Park, above Durham railway station. The only problem may be finding a suitable date when parking would not be an issue.
