There has been some confusion over the award of trophies and NN must apologise for this. Over the years a number of trophies have either not been returned or have gone astray. NEOA have decided that they would like to retrieve all of the existing trophies and class winners are to be awarded a permanent memento to keep.

These will be available to claim at forthcoming events (see NN website for details). Certificates for both L and S class winners will also be available.

Could any competitor who claimed a trophy on the Sunday please arrange to return it to Margaret Crosby, tel: 01670 736242.

**Maps**

Those competitors that could not make either day will be able to reclaim their map by sending their address details to:

Boris Spence, 6 Aln Court, Ellington, Morpeth, NE61 5LR  
email : borisspence@aol.com

**Officials day 1 day 2**

Planner :	Rob McKenna (NN)	Dave Caudwell (NN)
Controller :	Ray Barnes (NOC)	Patrick Smyth (NATO)
Organiser :	Boris Spence	Barry Young
	tel : 01670 860897	tel : 0191 2576246
	email: borisspence@aol.com	email: barryz@btinternet.com

**Planner's comments day 1 - (Rob McKenna)**

Edges Green is not a highly technical area and its run-ability has deteriorated since the Foot and Mouth outbreak in 2000. Although reeds seem to have almost taken over the whole area, there were still some fast times set by the class leaders in some very wet and windy conditions. I tried to keep the shorter courses to the 'greener', faster sections along the stream valley. Unfortunately, to obtain the correct distances, the longer courses travelled a bit further afield where the terrain was a bit tougher. The initial plan was to use more of Gibbs Hill farm extending the mapped area further east. Full permissions were not granted in time, but in any case, although this may have provided a bigger area, there would have been many more wall crossings.

My thanks to Ray Barnes for keeping me on the right track with his meticulous controlling and the few brave club 'volunteers' who helped collect the controls in.

Also to Andrew Nicoll (NATO) for his help before, during and after the event - programming the SI equipment and generally running the download and results service both days.

**Planner's comments day 2 - (Dave Caudwell)**

*Why Bewick Moor and not Allen Banks as advertised?*

This was for a number of reasons. Firstly, the PG plot we purchased for over £600 was the very worst (by a huge margin) of PG plots I've ever tried to work with, and as the date for the event approached, it became clear that I would be hard pressed to produce a decent map. Secondly, some parts of the area promised to be rather better than they actually turned out to be. Thirdly, the area became further restricted when some of it was declared out of bounds due to pheasant rearing activities (after I'd mapped it, naturally). Fourthly, there were only 2 crossing points available to us over the river Allen, and my attempts to produce longer courses left much to be desired, I felt. So all in all, 4 weeks before the event I thought that we needed to relocate to a NN area big enough and good enough to stage it, and one which we hadn't recently used while there was still time to do something about it. The only venue we had at our disposal was Bewick Moor.

*Why was Bewick Moor so tough?*

We haven't used the area for some time, and never before in Autumn, so it came as a bit of a shock to find that the bracken was so extensive and also high (although this eventually didn't cause so many problems as we thought it might when it started to die off rapidly), that the marshes had become tussocky, and that the heather was so deep in places. We soon decided that the M21's who had skipped round their course doing 5 minute K's in the Spring of 1997 at our last National Event here wouldn't be able to repeat that this time, and reduced the course lengths appropriately. The Estate told us that they now received a grant not to cut or burn the heather to the same extent as previously (it hasn't been used for grouse shooting for some time, so that was no great hardship for them), so there's the reason for that, and maybe the marshes grow the way they did in very wet summers like the area has just had.

Despite all this, I still think that changing the venue from Allen Banks to Bewick Moor was the correct thing to do, and you all deserve great praise for coping with the conditions you found there.

Remember the great views of Hedgehope and Cheviot in the superb weather.

---

#### **Acknowledgements**

Many thanks to the Day 1 farmers - Willie Weatherson (Edges Green) and David Swallow (High Edges Green) for the use of the area and helping with the stiles.

Also to Mr John Wrangham and family (Harehope Farms and Bewick Moor landowners), Phil Harkness (farm manager), John Sordy (Hagdon farm) and Martin Robison (shepherd) for the day 2 area.

A special thanks to Jacqueline Marley and the small band of TA cadets from the Hexham ACF, who helped man the car parking in dreadful conditions on day 1.
